

## 2010 Virginia Industry Environmental Conference Agenda

### Network, Learn, Green!

The 2010 Virginia Industry Environmental Conference will be held September 16-17 at the [Westin Richmond](#).

### September 16, 2010

The Virginia Department of Environmental Quality (DEQ) will provide regulatory updates on a variety of critical issues for industrial businesses.

1:30 - **Water Division Director, Ms. Ellen Gilinsky**, will provide the most up-to-date information on Chesapeake Bay TMDLs as well as water quality and supply updates.

2:00 - **Director of the Waste Division, Mr. Jeff Steers**, will provide and update on RCRA Corrective Action, the Voluntary Remediation Program, Solid Waste Regulation and TRI.

2:30 - **Break**  
2:45

2:45 - **Air Division Director, Mr. Mike Dowd**, will provide updates on three state regulations, the revised Minor New Source Review Regulation and the proposed biomass and generator general permits. This session will also cover the EPA's Boiler MACT and Greenhouse Gas permitting regulations.

5:00 - **Environmental Leadership Reception (Exhibitors Showcase)** Join the DEQ regional and headquarter staff and VMA members at the annual reception showcasing the conference sponsors and exhibitors. Special guests at the reception will be the **industrial winners of the 2010 Governor's Environmental Excellence Awards**, who will be honored during the festivities. **Secretary of Natural Resources, Doug Domenech**, will make remarks.  
6:30

### September 17, 2010

7:00 - **Drop-In Continental Breakfast (Exhibitors Showcase)**  
8:30

#### Challenging the Endangerment Finding

8:30 - The declaration of carbon dioxide as a substance that is hazardous to human health and the environment, based on controversial science, is potentially disastrous for many sectors of the economy. Is there a "win-win" for carbon regulation and the economy? **Mr. Tom Mullikin, Chief Counsel and Vice President for Public Affairs at Moore & Van Allen**, will present industry's reaction to this ruling, which will be critical to future environmental reporting and regulation. Tom will also screen his documentary, *The Whole Truth*, as part of the discussion.  
9:30

9:30 - **Current Air Issues that May Blow Your Business Away**  
10:30

An up-to-date review of the impact of new air regulations with a focus on Maximum Achievable Control

Technology (MACT) and National Ambient Air Quality Standards (NAAQS). Hear about these significant changes in air regulation and the impact on industry. Learn how your company may respond to these changes. It won't be business as usual.

Moderator: Mr. Tom Knauer, Thomas E. Knauer, PLLC

Panelists:

Mr. Jim Taylor, Sr. Environmental Engineer, MWV

Mr. Michael Dowd, Air Division Director, Virginia Department of Environmental Quality

10:30 -  
10:45

## **BREAK**

10:45 -  
11:45

### **Power-up with Onsite Energy Sources**

Interest is increasing for the development of alternative forms of energy that are located on or nearby industrial premises. This panel of experts will discuss the practical application of these new energy sources, as well as the barriers to their installation and use.

Moderator: Ms. Pam Faggert, Vice President & Chief Environmental Officer, Dominion Resources

Panelists:

Mr. Steve Gordon, President, Wood Fuel Developers LLC

Mr. Steve Pierett, Environmental and Energy Manager, Volvo Trucks North America

Mr. Patrick Hochstrasser, Site Head, BASF Suffolk Site

12:00 -  
1:30

## **Luncheon Program**

**Mr. David Paylor, Virginia Department of Environmental Quality, Director**

**Mr. Shawn Garvin, Environmental Protection Agency, Region 3 Administrator**, will address his goals for the region.

**Mr. Ted Narozny, Plant Manager, Lipton Tea-Suffolk location**, will detail how his plant achieved zero landfill status.

1:30 -  
3:00

### **Post Conference Workshop: *Cleaning the Bay***

Reducing only point source nutrients will not be sufficient to clean-up the Chesapeake Bay. Why are all sources necessary to make a difference!?. This panel will cover the basics of TMDLs (the precedent-setting regulations being issued by the EPA) and how Best Management Practices programs & innovative technology could be a way for industrials to reduce their nutrient load on the bay.

Moderator: Mr. Brooks Smith, Hunton & Williams LLP

Panelists:

Mr. David Johnson, Director of the Virginia Department of Conservation and Recreation

Mr. Albert Pollard, Delegate for Virginia's 99th District

Dr. David Schnare, Thomas Jefferson Institute
