

VMA SAFETY SUBCOMMITTEE

VMA SAFETY POLICY

The Virginia Manufacturers Association (VMA) has created a Safety Subcommittee within the VMA Environmental Health Safety & Security Committee (EHS&S).

The Mission of the VMA Safety Subcommittee is to provide members with the means to improve safety performance through professional development programs, training, and service as well as actively engage in regulatory and legislative matters affecting the workplace. The VMA Safety Subcommittee has its own legal counsel to assist in regulatory and legislative matters. Participation is open to Members and Associate Members.

The VMA is committed to the following core safety values:

1. An enhanced quality of life for the workforce through a safe and injury-free working environment;
2. Meaningful communications between all segments of the industry, including mentoring, benchmarking, and sharing technologies;
3. Continuous education and training for the workforce; and
4. Strong relationships and meaningful communication with regulatory agencies.

To apply for membership in the Safety subcommittee, please contact VMA Director of Member Services, Kimberly Noonan, at knoonan@vamanufacturers.com.
